## THE MARKETS.

Irregular and Generally Declining Prices in Wall Street Yesterday.

Financial Statement of the Canadian Pacific-The Wheat Market.

GOSSIP OF THE STREET,

New York, May 9.—The general feeling this morning was that the market was going to move right along and improve, and that the reactions would only, be trifling. It is generally admitted that there had been a good deal of manipulation, and this induced the room traders to resist the advance. Havlis and W. T. Hatch bought about 10,000 shares of Reading late yesterday, and it was reported that this company would guarantee 5 per cent. on Jersey the first year and 6 per cent, thereafter. It was reported that Mr. Morgan bought a good deal of St. Paul, Jersey Central, and Northern Pacific common yes-Central, and Northern Pacific common yes-terday, and Morgan & Smith continue strongly bullish. Late in the day Davis & Tileston bought 2,500 shares of Northern Pacific common. Woerishoffer says that he is doing nothing. Cammack says if he was to remain here he would sell 100,000 shares of stocks short. Louisville and Nashville, Cam-mack believes, will be reorganized before his return from Europe, and he believes this company will default on its interest inside of ninety days.

rinety days.

The Western Union telegraph business wa never better. They sent 71,000 messages ou of this city yesterday, which is the larges number of messages sent in one day since the death of Garfield. But some position tion of this gain comes from the closing Mutual Union offices. A Philadelphia tel gram this morning says the Reading director in session yesterday, agreed to guarantee Je sey Central as mentioned elsewhere, by Gowen declines to make any statement nov

The Union Pacific curnings for five day in May show a loss of \$1,000. The St. Louis Past-Dispatch people hav bought the World for \$350,000 and Mr. Hur burt will go abroad as representative of the Gould railway system.

Omaha carnings for the first week in May are very largely ahead of last year. Reports will be out to-morrow.

George Loesea sold 5,000 shares of Union Pacific this afternoon, and Peters & Pell sold 5,000 shares. The shorts were the buyers. It is reaffirmed that the National Dispatch Freight company of the Grand Trunk has reduced first-class west freights from New York from 75 cents to 45 cents per 100.

San Francisco telegrams say the Central Pacific is pushing its branch line through northern California to Oregon to compete with Villard of Northern Pacific, and the Central Pacific has several thousand Chinese who are pushing forward rapidly.

Heath sold New York Central; Anthony also sold, and Herrick offered the stock on options below the regular prices. Begert bought most of the New York Central, Walsh & Kirkner hammered Lake Shore, and Wormser bought. Osbarn and S. V. White bought Western Union largely; Coombs sold. Godet bought Northwestern, and Talcott also bought.

Seligman & Co. report that there has been no positive failure in London announced in Grand Trunk shares, as reported by the associated press this morning, and there has probably been a settlement made on the basis of 80 or 90 per cent. No embarrassment is reported in the London board. The Canadian Pacific will be listed in London to-morrow. The financial statement of this company cabled to London shows the road has carned expenses and a dividend of 2½ per cent, on all the stock issued. Government bonds are dull, awaiting Gov. Cleveland's action on the Page bill.

A Philadelphia special says the 6 per cent.

dull, awaiting Gov. Cleveland's action on the Page bill.

A Philadelphia special says the 6 per cent. guarantee of the Reading to the Jersey Central is equal to a 6 per cent. bond of the Reading, with the additional security of the immense water front in Jersey City, owned in fee and said estimated to be worth \$20,000,000. Bankers here differ regarding an advance in the bank rate in London to-morrow.

Western newspaper reporters who inter-

Western newspaper reporters who interviewed Gould quote him as saying: "All the roads so far in operation in Mexico can be purchased at your own price."

Gould further stated that he was not doing

much with his road from Laredo into Mexico. There had been trouble regarding concessions and arrangements to consolidate, which were now being made with fair prospects of suc-Lackawanna has been hammered by Slay-

Lackawanna has been hammered by Slayback, Kirkner, Walsh, Johnes, Mauriac, and other room traders on sensational rumors of cut rates and a burst up of coal combination. The largest sellers of Jersey Central to-day were W. T. Hatch, Nicholas, Ford, J. B. Wilson, F. B. Wallace, Grovesteen, and Pell. The buyers were Newcomb, Kidder, B. B. King, Prince & Whitely, and John Wallace, In St. Paul Boocock bought largely, Worden bought 3,000 shares, and other buyers were Ballou, Spencer, Trask, and Phil Bruns. Slayback sold Central Pacific, and Wheeler and Baldwin sold Union Pacific.

A private Washington dispatch says the official report of the state of Illinois to the national burean shows that the winter wheat

tional bureau shows that the winter wheat crop will be 70 per cent, of last year's. Ed. Willard telegraphs from the west that the general crops will be plenty big enough to carry the market. It is reported that there will be an extra dividend declared this year on St. Louis and San Francisco preferred

THE DAY'S TRADING.

THE DAY'S TRADING.

The market opened irregular and weak for the Vanderbilts, Central Pacific, and Union Pacific. The two latter were unfavorably affected by the reported strife over California business. Central Pacific declined on the admitted quiet sales by Crocker and other insiders. Lake Shore was hammered by the room traders, and New York Central was sold down by the room traders also. The general list in the early transactions seemed to lack support from any but large. to lack support from any but large professional traders. There was a disposition to put out some stock on the reported London troubles in the Grand Trunk shares, but the denial of this atory served to check the decline, and a better feeling followed.

The Gould's trader was a safet and standard trader.

The Gould' stocks were quiet and steady; stocks lent at 3 to 4; New York Central flat money was offered at 4; sterling unchanged; covernments dull, awaiting action on savings

On the second call the room traders ham-

On the second call the room traders nam-mered Lackswanna, on rumors of a break in the coal combination, but the shares weak-ened but slightly.

Walls sold 5,000 shares of Lackawanna, and Anthony & Shaw 5,000 shares, this afternoon. The shorts in Union Pacific were covering

down this afternoon, and compared with the prices of morning money.

Railway bonds, especially West Shores and East Tennessees, are active and firm. The market closed dull and unsettled at the lowest prices of the day. The buying of Bochester and Pittsburg has been very good during the last week, and it is rumored will go very high on the next advance in the market—30 is talked for it this month.

The wheat market is strong though many would like to see a decline. Robert Brace is advising his patrons to buy, and says the market is still below its merits.

Another my-mile section of the Northern Pacific railway in Montana was accepted yes-terday. This section, which was recently completed, extends from the five hundred and fiftieth to the six hundredth mile of the road west of the Missouri river.
